SMART STARTS HERE

D2L® Integration
Learning Management System Course Exam Connector

EvaExam's D2L integrations make it more convenient for students and instructors to access their course exams from their Brightspace or Desire2Learn home page. The integrations are available as a Learning Tools Interoperability (LTI) connector for Brightspace and Desire2Learn.

Together, EvaExam, Brightspace, and Desire2Learn work to make it convenient for students to take online exams.

The **student portal** provides each student with a list of their open online exams.

Each exam opens in a new browser window. After students complete an exam, the window displays which exams they have completed and which are pending, so they can complete all their exams at once.

The **instructor portal** provides a list of each instructor's classes, showing the exam completion rate and providing access to the most current results report.
